Liviu Caciulatu

Software Developer

Profile

As a dynamic professional with a background in light design, bartending, and office management, I am seeking to leverage my newly acquired skills as a Software Developer. Eager to contribute with my creativity, adaptability, and technical proficiency to a dynamic team in a software development role.

Experience in IT

2022 – present

MBH IT&SOFTWARE

Software Developer B2B

Developed and maintained web applications using React and Next.js. Collaborated with cross-functional teams to design, test, and deploy scalable solutions. Optimized code performance and debugged issues to enhance system efficiency. Worked in an agile environment, contributing to code reviews and implementing best practices for software development.

Projects

LiviuCaciulatu
Web Developer&Problem solver

Cleancode Website: Developed using Next.js, focusing on performance, scalability, and user experience. Integrated industry-standard tools and frameworks to enhance reliability and flexibility. Ensured best practices in code quality, maintainability, and Agile development methodologies.

Trivia Game: Developed an interactive trivia game using Next.js, focusing on seamless user experience and performance optimization. Implemented dynamic question generation, real-time score tracking, and responsive UI design. Integrated APIs for fetching trivia questions and optimized server-side rendering for fast and efficient gameplay. Ensured clean, maintainable code following best practices.

My Portfolio: Designed and built a personal portfolio website using Next.js to showcase projects and skills. Developed a responsive and visually appealing UI with smooth navigation and fast load times. Implemented dynamic content. Ensured a clean, maintainable codebase following modern web development best practices.

Hangman Game: Created a simple yet engaging Hangman game using React. Implemented real-time gameplay mechanics, such as tracking guesses, displaying correct/incorrect letters, and showing the game status. Followed React best practices to ensure clean, modular, and maintainable code.

General Work Experience

2018 - present

Fratelli Group,
Bucharest

Office manager

Leading administrative operations, overseeing a variety of tasks and ensuring the efficient functioning of the office environment within the Fratelli Group.

- Implemented streamlined processes, improving office organization and overall efficiency.
- Facilitated effective communication within the office and between departments.
- Assisted in HR functions, maintaining records and contributing to the hiring process.
- Managed office facilities, vendors, and contributed to budget oversight.
- Managed issues and conflicts, proactively identifying and solving challenges.

2013-2019

Fratelli Group,
Bucharest

Bartender

- Proven excellence in bartending, ensuring top-notch customer service and maintaining a well-stocked bar.
- Promoted to Shift Leader, overseeing daily operations and managing team schedules for smooth shifts.
- Promoted to Bar Chief, leading the team, implementing efficient processes, and maintaining high service standards.
- Showcased adaptability by seamlessly transitioning between roles, contributing to the overall success of the establishment.

Education & Courses

CleanCode Academy

High School Diploma

Completed a course focused on React and Next.js, working on real-world projects to build dynamic web applications. Recently started learning Java to expand my development skills.

CodeCool Academy

Front-End Developer

Completed a course covering HTML, CSS, JavaScript, and React, gaining skills in building responsive, interactive web applications and writing clean, maintainable code.
